Subject: Thank You Headache Clinic

The Headache Clinic Staff

Thank you for the assistance that I got from your clinic. I suffered with headaches for a longtime and had given up on finding a permanent solution to my problem. Before I came to your clinic I was having migraine every week. I always carried medication in my bag but even that was not much help.

When I first came to your clinic I must admit that I was very doubtful of your ability to resolve my problem. However, I had no choice because I had tried everything. When I completed the tests, I was told I needed a plate in my mouth and although I had reservations I went ahead.

At first there was not much help from the plate and I kept coming back for reviews and adjustments. Thank God because you didn't charge me for these reviews. Now I am much better. My headaches are so rare now and even when I get them they are not as severe as they were before. I don't even use that plate everyday but I still keep it and know when I need it.

You really have helped me and I thank you for your assistance even when I was doubtful of you. You have helped me a lot as I can concentrate on my work and other things better than before.

Thank you and may God bless the work that you do.

Mrs K. Moonsamy
