Mbabane, SWAZILAND.

21. 01. 2010.

I would like to encourage the patients of the Headache Clinic that are using the PMA not to give up but to come for follow up appointments. Last year November I came for my adjustment and eventually I got cured. Since then I have not had even one headache & I did not mind to travel all the way for a new one to be made.

The staff does not make you feel inferior some clinics once you pay they don't care about your improvement but the Headache Clinic is totally different from all the health institutes they don't complain you can return so many times. No extra questionable charges for treatment everything is completely explained you don't get confused but you know exactly what you are paying for.

Thank you to the entire staff of the Clinic  
Keep it up.

Mrs. **D.** Mabchwayo pt since 2006.
