

To The Headache Clinic Staff.

I would just like to thank the headache clinic for the relief that they have given me.

After suffering from severe headaches on a daily basis for over 6 months with no luck to get rid of the headache, i finally made contact with the headache clinic.

Once i had started with the treatment from the clinic, it didnt even take more than a week before i could notice & feel the difference. Its nearly a month since i started with the treatment and already the headaches that bothered me for almost 7 months are completely gone.

I still use the PMA daily and i hardly notice its there, the good thing about the treatment is that i dont have to take any medication over and over again, the PMA does all the work and gives instant relief.

My neck and shoulders feel more relaxed, with absolutely not feeling of tensioned muscles and a sore neck, plus the exercises i got from physio that i do help a lot.

Thanks to headache clinic, i now dont have to worry about my headaches.

Dakalo Manenzhe.
