

Hi,

I would just like to thank the Headache Clinic for the assistance with my "unbearable headaches". I think it's safe to say that my headaches are a thing of the past.

After being for numerous consultations, x-rays, scans and even treatment at various doctors over the past year and a half, I decided to try out the headache clinic. After being fitted with the PMA I was told that I would need to come in for further consultation and adjustment before I could see positive results. I must say I was at the clinic for the first fitting and have never needed to come back for a follow up session as the PMA worked perfectly. My headaches are literally gone and I have not felt better. Its been 2 months since I am on the program and I have had positive results from the 2nd day.

I will recommend any headache sufferers to make an appointment at the clinic.

I feel great!

Thanks again.
