Dr S

I still cannot believe it is true you cured me from all the terrible pain I suffered from for so many years. It brings tears to my eyes when I think of what all you have done for me. I know I keep telling you – I just have the urge to. How do you feel about your achievement on me?? I am sure you must be very, very proud.

I never ever stop raving about you – you have a miraculous and healing brain as well as healing hands that is for sure!!!

To think in the beginning I was afraid of you, especially as my pain kept moving and you could not understand!!

At least we had some good laughs at the Linksfield Clinic in the operating theatre!!!!

Eventually when I get through my present condition (I try hard not to think about it – I am getting weak again and go for a full blood count on Wednesday probably will mean another blood transfusion). I will then start with my story from the beginning re: how many, many years Specialists etc were unable to cure me until I came across you.

If you could see the amount of correspondence I still have which I used to type each time I saw the specialists so they could read my condition etc. Also the follow up letters when I had to see them again re Progress etc which of course there was very little if any and did not last.

Heavens where will I start with the writing??? It will have to be straight to the point – were are not publishing a book at this stage yet????

I need Leif to assist in writing it as he goes straight to the point and is quick. He dictates and I type as I am a very fast typist approx 105 words a minute.

THANKS FOR BEING THERE FOR ME.

Menants

**Best Regards**
