To Dr Shereel & Staff

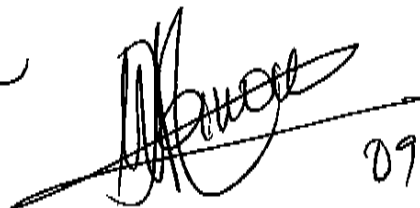

I want to thank you for the change you brought into my life when I was treated for the migraine in June 2007.

My life changed, I was there for my kids no longer sick & always sleeping. I even joined a gym group in my hometown and my life was really changed.

I also recommend your clinic to the people in the Northern Cape because they do not know about it. Thanks for bringing life back into my home.
