

TO: THE HEADACHE CLINIC

I would like to thank you for assisting my daughter with the headache problem. I realise that if I did not bring her to you she could not be having her matric certificate.

My daughter started suffering from headache since 2005, and I have been through different Doctors and I could not get help. Last year my husband was listening to SAFM (radio station), that's when he heard about the clinic.

I am very much happy because the PMA that was given to her, made her headache subsidise, and now she is coping with her studies, she is now at the College studying. Thanking all the Doctors and Nurses that helped my daughter.

Thank you
Joyce Mashakeni
