The headache Clinic.

I can safely say I have been completely healed from my monster headaches (drug free!!) My headaches started in 2005. Horrible, terrible, scary headaches. I'd feel like my eyes would pop, like someone was drumming my head. The blurred vision, the pain, nausea and feeling helpless all that gone. I visited the headache clinic late 2006. and started to use the PMA straight away. I haven't experienced these headaches since starting the treatment. It really works and it is drug free!! It definitely worked for me. Three years down the line no headaches at all!! What more can I say!?

MVP Mathibela.
