

Testimonial

Greetings to all you wonderful people at the clinic. I use to get headaches on a daily basis. Everyday i woke up with one, used pain killers to carry me through the day, and in the evening, went to bed with

one. A colleague told me about the headache clinic. I didn't waste any time. Today, i can't believe that a simple pma can change your life completely. I don't know what a headache is ever since. You guys are angels! Keep up the good work. GOD BLESS!!

Regards

Martha
