

The headahe clinic.

I would like to thank you for taking away the problem I have had for the last fifteen years or so.

I have had headaches that deprived me my quality of life. I've done all the head scans almost every year , seen specialists and taken different types of strong medications but nothing helped.

I heard about headache clinic throgh the media and went on to their website and read tesimonies. When I phoned them for appointment the refered me to my nearest branch in Durban.

They picked up I had tension headache and they arranged a plate for me. I never had a reason to go back to them since then as headache is gone .

It's so unbelievable. I have whole new life , I am now having fun with my family and my work perfomance have improved significantly.

Mrs P.S Ntanzi
Durban.
