

DEAR: HEADACHE CLINIC.

I Sorry Ngamank would personally like to confess that since when I started using P.M.A treatment I have now, ^{have} a remarkable improvement from the day I inserted it into mouth. Earlier it was a problem by experiencing severe back headache especially from the neck. This use to be a problem since I was very young up to recently. With this much I probably explaining it to anyone who would want to share experience as for now, this is what had happened to me.
