**TO WHOM IT MAY CONCERN**

Before I consulted doctors at the Headache Clinic, I had constant headaches, I could not remember simple things & feeling very tired and irritated because of them, probably from the numerous drugs prescribed by GP's. Then my life changed when I met Drs M Orelowitz and E.J Shevel. I received remarkable drug free treatment which worked miraculously. I used PMA (Posture Modifying Appliance) to better my headaches. I had no belief that such a small thing could actually work and make me better. Within two weeks after consultation I felt a huge difference and at the end of two months my headaches were gone.

Very occasionally I experience a slight headache which goes away by itself

Anyone with HEADACHE PROBLEMS should not hesitate to consult the Clinic because Right Now I Can Gladly and Proudly say I'm MUSCLE TENSION AND HEADACHE FREE!
