**Subject:** FW: Another success story for you....

Hello Dr. Shevel

I was a patient of yours for about 8 months, maybe even more. I was one of those patients whose headaches never went away, no matter what. Eventually, you performed surgery on my arteries. I thought I might let you in on the progress thus far.

You performed the surgery on me towards the end of February last year (2007). It was, as expected, a last resort measure. I would like to thank you from the bottom of my heart, because that last resort measure did the trick!

I am able to be out in the sun for longer than 30 minutes without suffering. I can participate in sporting activities again. I can even sleep at later times, making leeway for my studies! It has been the best thing that has ever happened to me! And for that, I thank you...

Thank you for living up to your motto... a better life ahead... I have certainly reaped those benefits!

Forever grateful,

*Abeisha Singh*

I may not have gone  
where I intended to go  
but I think I ended up  
where I intended to be.
