Subject: Thank you for operating and giving me quality of life

Dear Doctor Shevel

It is nine weeks today since you operated by tying off six arteries and cauterizing various muscles on my head and I am ecstatic to inform you that I have not had a migraine since going into theatre! The back and one side of my scalp, however, is still numb, but you did say that this will come right with time.

I would like to, once again, thank you and your team for everything you did for me in December 2008 and May 2009 and most importantly, for operating and giving me quality of life after 54 years of agonizing migraine attacks which left me incapacitated for up to four days every two weeks. My family are equally delighted with the results of the operation, as we can now plan outings and events without having to cancel due to me having migraine.

Should you wish to use my name as a reference for future patients, you may do so with pleasure, by giving them my contact details as set out below.

Kind regards

Charmaine Schmidt (Mrs)
