

31 August 2009

To all concerned

My daughter Roxanne has suffered since the age of 12 with severe migraines. They were so severe that she would vomit continuously and could not even see out of her eyes. This of course resulted in her missing so many days at school. We took her to every specialist possible but with no change.

Finally we tried "The Headache Clinic"

Roxy was given a plate to wear in her mouth. What a difference. She has not had one headache since her plate.

I want to thank each one involved at the clinic for the kindness and understanding you all showed her.

Most of all I want to thank you for changing her life. You see, Roxy is in grade 12. She has to write her prelims now in September. This is the first time she has been able to study every day and attend school everyday without any pain what so ever.

Thank you, for making a difference. We will always be so very grateful to you.

All our gratitude

Tina and Roxy Jones.
