Subject: Arista van wyk

Just a short note to thank everybody at the Headache Clinic in helping Arista recover from severe headaches. This is now something of the past. She is much more relaxed and lively. She can enjoy life again, and smile when she wakes up in the morning. A special thankyou to Richard who is really going out of his way to assist whenever we need advise. And also a big thankyou to all the Doctors involved in making this a fantastic clinic.

Many thanks again.
