Subject: Migranines

Dear Dr Shevel.

I hope that I find you well, I just wanted to keep you up to date since the last time I emailed – which was a long time ago. I have only had one migraine and funny that It is today, that's why I thought of you! Otherwise I have being doing so well and I am so pleased that I took the next step in having the operation done. It has truly given me my life back, I actually have being able to go out in the evenings ☺

Please send my regards to Simone.

Many thanks and keep well

Regards

Tracy Venter
