

Hi all you wonderful ladies (and gents) at the headache clinic for the most fantastic and professional treatment that I received from you all at the Headache Clinic.

The little pink wonder that your technicians made for me really did the trick.

After eight months of such bad headaches that I didn't know what to do with myself, within a week after wearing the plate I am now headache free and have been for almost three months

NOT ONE HEADACHE !!!!!!

I must admit that the injections were not very pleasant but also did the job in a temporary way until the plate was ready.

Never was it too much trouble for any of the sisters to listen to my moans and groans and to give me the temporary relief be it a kind word or an injection or physio.

I never did get to see any of the Doctors but really it was unnecessary as you girls were so competent and professional.

Thank You! Thank you!

May peace and light fill you all forever

God Bless

Wendy Wright
