I love a great day

HEADACHES, HEADACHES AND MORE HEADACHES!!

It all started in 2004, couldn't eat or drink cold stuff and endless sleep. Went to different doctors and dentists and all I got was injections from east rand to west rand, public and private doctors, nobody knew what's the cause. I was referred to the Headache Clinic, can't remember by whom because of the pain. No injections, no drugs until 2009 I suffer no headaches. 100% improvement and I am happy to have come here. You've got a terrible headache? You've come to the right place.

To Dr Shovel & Staff

I want to thank you for the change you brought into my life when I was treated for the migraine in June 2007.

My life changed, I was there for my kids no longer sick & always sleeping. I even joined a gym group in my hometown and my life was really changed.

I also recommend your clinic to the people in the Northern Cape because they do not know about it. Thanks for bringing life back into my home.
